Our Digital Transformation Services

Course Development Process

Instructional Design

Analyze the base content and create a design document defining the objective, structure, TOC, etc. and sign off by client

Storyboarding

Storyboard of the course is developed based on the content and signed off design document which include the following:

Logical progression, audio script, and description of graphics, animations, video, learner interaction and assessment etc.

Alpha Dev

Develop the course based on the signed off storyboard including developing the graphics, animations, interaction and computer audio

Beta Dev

Once the Alpha version is signed off beta version is developed based on all the feedback including real audio recording

Final

The final course packaged is created and delivered in the required format to run on LMS, Web, Mobile platforms etc.

emtech
